PRE & POST TREATMENT

neo  
GENESIS

# MAXIMIZE YOUR RESULTS AND REDUCE RECOVERY TIME.

Utilizing the optimal set of adult stem cell types to produce the NeoGenesis stem cell released molecule technology (S<sup>2</sup>RM®)<sup>1</sup>, NeoGenesis products help support professional procedures by minimizing redness, irritation, and reducing overall downtime.

## CO<sub>2</sub> LASER WITH PRP

→ **BEFORE** ————— → **AFTER** —————  
*Immediately following treatment*                      *5 days post treatment*

“As a clinic director, I wanted to try NeoGenesis on myself first. I received both a PRP and a CO<sub>2</sub> Laser treatment. I am amazed at what Recovery and Intensive Moisturizer did to reduce my downtime and discomfort post procedure.”

1. Maguire G (2019) The Safe and Efficacious Use of Secretome From Fibroblasts and Adipose-derived (but not Bone Marrow-derived) Mesenchymal Stem Cells for Skin Therapeutics.

# healthy skin

“I’m a licensed Pharmacist and work with and used other skin care products in the past but my experience has left me in shock after personally seeing how NeoGenesis Recovery worked on my IPL Laser Burns. I honestly have never seen anything like it, it worked so fast!”

## IPL LASER BURN

→ BEFORE → 2 DAYS → 7 DAYS →  
*7 Days Post IPL Laser Burn using a competitive brand*      *9 Days Post IPL Laser Burn 2 days on Recovery*      *14 Days Post IPL Laser Burn 7 days on Recovery*

*minimize side effects and boost healing*

Use of NeoGenesis Recovery twice daily for one to two weeks prior to an IPL treatment will naturally deliver all the nutrients and molecules needed to improve the health of the skin. Renewed skin will produce better results and faster healing after the procedure. NeoGenesis Barrier Renewal Cream used after Recovery will keep the skin hydrated and improve the barrier function of the skin.

# CO2 LASER FOR SUN DAMAGE AND AGING

→ BEFORE → 2 DAYS → AFTER →  
*Immediately following treatment with use of Recovery* *4 days post treatment with use of Recovery*

→ BEFORE → 2 DAYS → AFTER →  
*Immediately following treatment. Recovery NOT used.* *4 days post treatment. Recovery NOT used.*

“I have tried out a variety of treatments and this is the most aggressive one. I was concerned about the downtime and my comfort level. I didn't miss any work and the Recovery product when applied had a cooling effect of the heat. I am very impressed by the results; I used Recovery only on my face and you can see how well it reduced the redness by the second day, compared to my décolleté that I didn't use the Recovery on.”

## FRAXEL LASER BURN

“My year old fraxel laser scar disappeared after using Recovery for only 30 days! I thought I would be using makeup to hide it for the rest of my life. Amazing! I'm so happy to have found NeoGenesis!”

NEO GENESIS

Recovery

Next Generation Stem Cell Science™

1.0 fl. oz. / 30 mL

# heal and nourish

It is important to prepare the skin in advance of receiving professional treatments to optimize the intended results and minimize downtime or unwanted results. NeoGenesis products boost the skin's ability to regenerate using the patented S<sup>2</sup>RM<sup>®</sup> technology. Our molecules bring you the most advanced cosmeceuticals available today and may be applied before and directly after treatments.

## MICROCURRENT

“I am a 60+ woman who has been receiving professional skin care treatments and using recommended professional products for the past 5 years. My appointments are approximately every 6 weeks and my go to treatment is Microcurrent with a vitamin A serum.

While my skin has felt very good, it still retained a red, slightly ruddy look. I assumed it was years of outdoor activity and the accumulated damage that I wouldn't be able to do much about. Last week I had my regularly scheduled Microcurrent but this time was different. My esthetician applied Recovery before the Microcurrent treatment and again after, followed by the Intensive Moisturizer. We were both surprised and a bit amazed when for the first time in decades, my skin tone appeared very even and glowing. All signs of redness were gone! I did not think this was possible, especially during only one treatment.

I've always been more interested in very healthy skin as opposed to looking a lot younger. This time I got both as a nice bonus! The value add was incredible and I'm excited to go forward with my new look.”

# barrier repair

Post procedure, skin will be in a more sensitive and fragile state. It's important to handle with great care for the proper healing and to lessen any chance of complications.

## CHEMICAL PEEL

← BEFORE → Immediately following treatment      ← AFTER → 24 hours post peel

“As my initial pictures indicate, I had a reaction to a peel. I applied Recovery over half of my neck. The second set of pictures shows my neck roughly 24 hours later. The side that I put Recovery on completely calmed down. The side I did not apply Recovery to blistered and was very painful. As a licensed aesthetician I highly recommend using Recovery post chemical peel.”

## CHEMICAL PEEL

→ **BEFORE** → **22 DAYS** →  
*Chemical Burn* *9th day of Radiation*

“ I have been using the NeoGenesis product, Recovery, for a chemical burn and for side effects from radiation... Recovery truly helped me to heal and relieved my discomfort. At this time there is almost no scarring.

I used Recovery daily and surprised all of the technologists and doctors (especially since I have Lupus), as I did not peel, blister, or scar... Your product Recovery saved the day. I hope other cancer patients have the opportunity to use your stem cell skincare products to save their skin.”

## PLASMA FIBROBLAST

→ **BEFORE** → **2 WEEKS** →

“ Using Neogenesis Recovery serum allows the skin to heal much faster after a Fibroblast procedure. Because it is important for the skin to dry-heal after Fibroblast, Recovery is the only product I allow my clients to use on their skin post procedure.

## MICRONEEDLING

→ BEFORE → AFTER →  
*Immediately following treatment.*      *20 minutes post treatment.*

“I am a licensed Esthetician who has become a big believer in NeoGenesis Recovery for many of my treatments. I want to mention a client with over-stimulated skin due to her home care protocol of too many actives at one time. During her first Collagen Induction Therapy session, and as a brand new client, I could barely perform the treatment as her skin reacted with large red welts and some pinpoint bleeding at a very shallow needle depth. During that time she remained red for over 2 days. The redness should have dissipated in a few hours. Fast forward one month to the second treatment. My client was compliant in her home care. During her treatment I used Recovery prior to the micro-needling and immediately after. The difference was remarkable! The first photo shows my client immediately after her second treatment. The second photo shows her in less than 20 minutes post treatment! This is taken in natural light with absolutely no makeup or filters. I am a believer and Recovery will definitely be in my protocol for micro-needling.”

---

The NeoGenesis line of products is completely safe, non-toxic, and a perfect pairing for pre and post-treatment care. Using our patented S<sup>2</sup>RM<sup>®</sup> technology, NeoGenesis products help the skin revitalize itself naturally by providing the molecules and nutrients that help the skin heal and repair more quickly.

# product partners

## RECOVERY

A breakthrough serum that assists in creating better results as the skin is nourished and revitalized. Recovery is a breakthrough serum that speeds the healing process, reduces inflammation, and aids in protecting the barrier of the skin.

## SKIN SERUM

A unique anti-aging serum that combats the initial dryness associated with treatments. May be used to aid in additional hydration and healing of the skin.

## INTENSIVE MOISTURIZER

A luxurious and deeply hydrating cream that improves the barrier function and may be applied directly after treatment to promote healing and repair.

## BARRIER RENEWAL CREAM

A lightweight, reparative cream that can keep the barrier hydrated, repaired, and soothed pre and post-treatment to improve the barrier function.

## MOISTURIZING MIST

A light, uplifting spray that effectively hydrates and provides instant relief to cool irritated and heated skin.
